## PRESS RELEASE

March 8, 2011: For Immediate Release

### **Oakland Introduces Calibration Services, Spare Parts, Repair, and Instruments for the Paper Industry**

Minneapolis, MN – Oakland Instrument Corp. has introduced new services for the paper industry, Oakland said March 8th.

Welcome to Oakland Instrument and our wide range of test instruments for quality control testing of paper, plastic film, and sheet.

Since our start in 1991, Oakland Instrument has become well recognized as a leader in computerized Benchtop Gauging in the film extrusion industry. In the last ten years we have evolved into a respected sheet and film test instrument company specializing in computerized test instruments in the thickness/caliper, tensile test, and COF test product areas. We also provide a full range of support services, and supply innovative technology throughout our complete range of product offerings.

Oakland Instrument was formerly a distributor of Emveco instruments for the paper industry, from 1998 to 2004. In June 2004, when Emveco was acquired by Lorentzen and Wettre in Sweden, Oakland Instrument expanded its product line to include a range of MicroGauge Calipers, our MX Series, for off-line thickness measurement of paper and plastic film products.

Oakland Instrument is experienced and knowledgeable within the paper industry; with products, people, and support services of interest and value to you.

**Oakland Instrument is proud to announce the addition of Calibration Services, Spare Parts, and Repair for MicroGauge products, ours as well as other OEMs; to ensure that you are able to acquire cost-effective support for your older instruments.**

We would be pleased to provide additional detail on our Calibration and Repair capabilities. We welcome the opportunity to demonstrate our capabilities, or provide a quotation or proposal to you for comparison to your existing supplier.

At Oakland Instrument we are committed to helping you produce the highest quality products, so please feel free to contact us for additional information.

We look forward for the opportunity of serving you.

Oakland Instrument is a Minneapolis-based test instrument manufacturer.
